## GUI User Manual

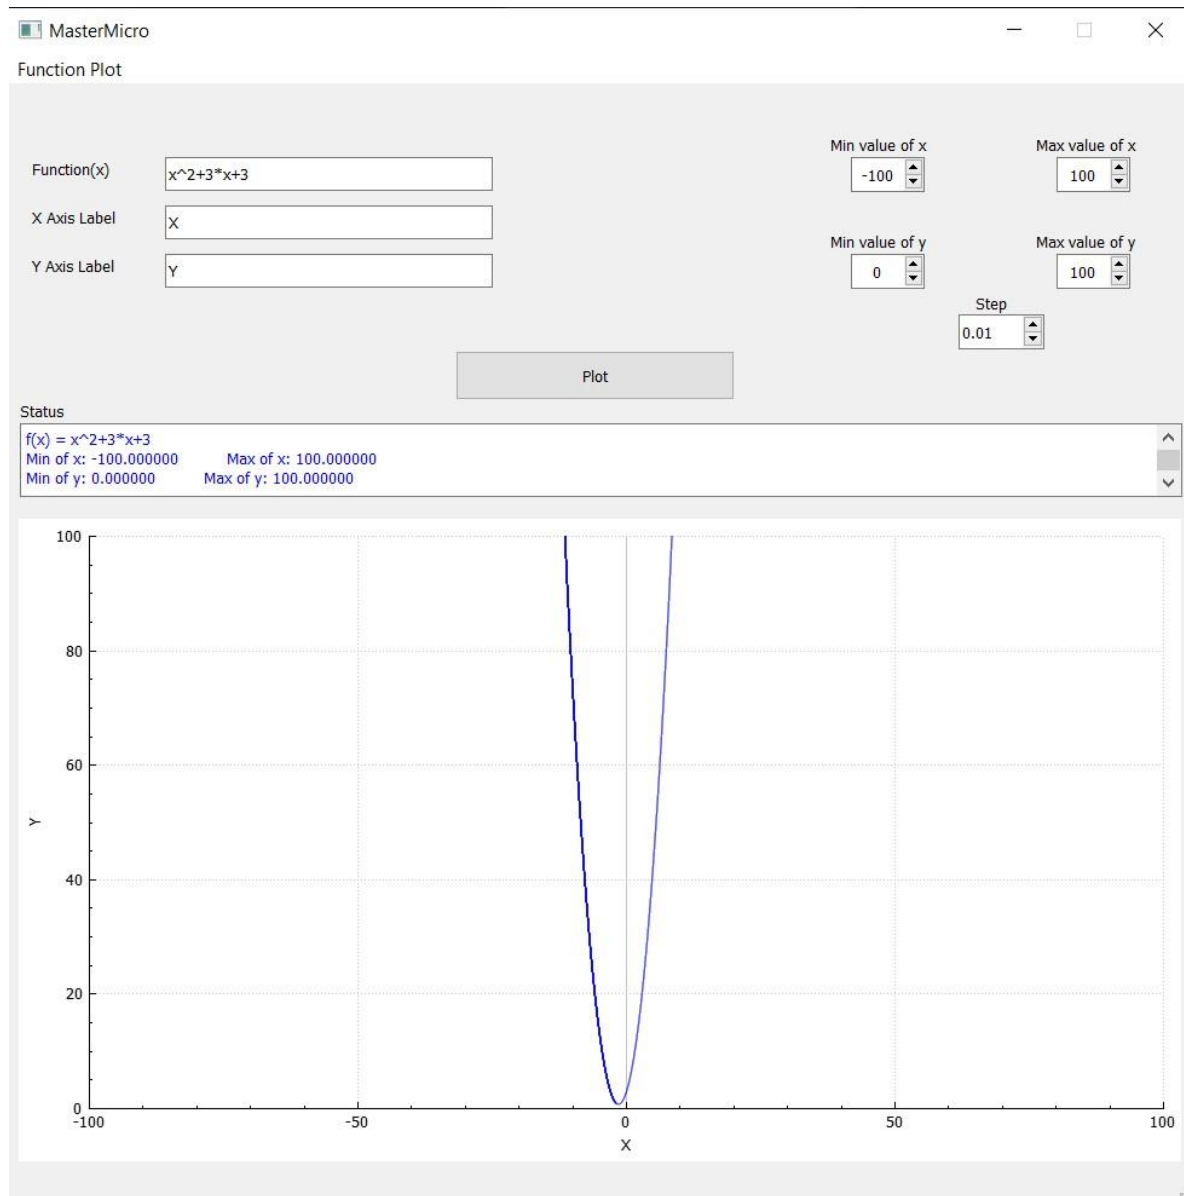

- **Function(x) text field** is the place where to insert the function of x be the user.
- **X label text field** is the place where to insert the label that appear on graph in the horizontal axis axis.
- **Y label text field** is the place where to insert the label that appear on graph in the vertical axis axis.
- **Min Value of x** is the place where to insert the minimum value of x on the graph.
- **Max Value of x** is the place where to insert the maximum value of x on the graph.
- **Min Value of y** is the place where to insert the minimum value of y on the graph.

- **Max Value of y** is the place where to insert the maximum value of y on the graph user.
- **Step** is the step of substitution in creating the graph data.
- **Plot** is the button to start plotting when it is pressed.
- **Status** shows the errors that may the user make or the equation if no errors.

# Test Cases

## Positive test cases

## Function Plot

Function(x)

 $x^3 - x + 5$ 

X Axis Label

X

Y Axis Label

Y

Min value of x

-10

Max value of x

10

Min value of y

-10

Max value of y

10

Step

0.01

Plot

## Status

 $f(x) = x^3 - x + 5$ 

Min of x: -10.000000

Max of x: 10.000000

Min of y: -10.000000

Max of y: 10.000000

## Function Plot

Function(x)

 $1/x^2+3*x$ 

X Axis Label

x

Y Axis Label

y

Min value of x

-10

Max value of x

10

Min value of y

-100

Max value of y

100

Step

0.01

Plot

## Status

 $f(x) = 1/x^2+3*x$ 

Min of x: -10.000000

Max of x: 10.000000

Min of y: -100.000000

Max of y: 100.000000

## Function Plot

Function(x)

 $2^x$ 

X Axis Label

x

Y Axis Label

y

Min value of x

-10

Max value of x

10

Min value of y

-10

Max value of y

10

Step

0.01

Plot

## Status

 $f(x) = 2^x$ 

Min of x: -10.000000

Max of x: 10.000000

Min of y: -10.000000

Max of y: 10.000000

## Negative Test Cases

MasterMicro

Function Plot

Function(x)

X Axis Label
